

NOTICE OF PUBLIC HEARING

NORMAN UTILITIES AUTHORITY

CWSRF PROJECT NO. ORF-14-0005-CW

The Norman Utilities Authority (NUA) will hold a public hearing at 7:00 P.M. on January 21, 2014 at Norman City Hall at 201 West Gray. The hearing is to discuss proposed improvements to the NUA's water reclamation facilities, alternatives to the proposed improvements and their associated costs. One purpose of the hearing is to discuss the potential environmental impacts of the project and the alternatives to it.

The proposed project is known as the Norman Water Reclamation Facility (WRF) Phase 2 Improvements as identified in the Planning and Environmental Information Document and consists of the following major elements:

- expansion the WRF capacity from 12 to 16 MGD,
- modifications to the headworks facility,
- influent flow measurement,
- primary clarifier improvements,
- additional aeration facilities,
- secondary clarifiers with sludge pumping,
- disinfection and post aeration facilities,
- outfall piping,
- improvements to solids handling processes,
- odor control measures,
- standby power equipment,
- electrical and control systems improvements,
- and other improvements.

The Planning documents, which include environmental information, are on file and available for public inspection at Utilities Administration, 201-C West Gray, Norman, Oklahoma. These documents provide a detailed description of the project cost, financing information, cost to users, alternatives considered and environmental effects.

The public is invited to attend.
